

## Exercise 2.2

**Declarative vs. Procedural Knowledge**

Following are ten statements regarding academic content. For each one, determine whether it is declarative, procedural, or either. If either, explain why.

|   |             |            |        |
|---|-------------|------------|--------|
| 1. Creating a line graph to represent data                        | Declarative | Procedural | Either |
| <hr/>   |             |            |        |
| 2. Describing the events that led to the Cold War                 | Declarative | Procedural | Either |
| <hr/>   |             |            |        |
| 3. Determining breathing rate and heart rate                      | Declarative | Procedural | Either |
| <hr/>   |             |            |        |
| 4. Refusal skills   | Declarative | Procedural | Either |
| <hr/>   |             |            |        |
| 5. Characteristics of chance events                               | Declarative | Procedural | Either |
| <hr/>   |             |            |        |
| 6. Keyboarding techniques   | Declarative | Procedural | Either |
| <hr/>   |             |            |        |
| 7. Keeping in rhythm  | Declarative | Procedural | Either |
| <hr/>   |             |            |        |
| 8. The relationship between the seasons and the tilt of the earth | Declarative | Procedural | Either |
| <hr/>   |             |            |        |
| 9. Survey sampling technique                                      | Declarative | Procedural | Either |
| <hr/>   |             |            |        |
| 10. Front-end rounding  | Declarative | Procedural | Either |
| <hr/>   |             |            |        |
